A school in the heart of the city

Situated in the historical heart of Liège, close to the city Centre, HELMo Campus des Coteaux welcomes in a renovated building about one thousand teacher trainees ready to follow, in a participative structure, a training including theory and practice.

A school on the move

Numerous and creative projects allowing for a dynamic approach which is so important for teacher trainees. Practice activities in collaboration with pre-primary, primary, secondary and high schools: « Printemps des sciences », discovery classes, didactic workshops ... Open-mindedness towards the outside world in study trips, international mobility with Erasmus programs or school practice abroad (Europe, Africa, Canada ...).

A school where we take students into account

A limited number of students in each group allowing for a personalized relationship with teachers and among students. An individual follow-up in order to build with each student the best conditions for success.

Several services for students: a library (Centre de Ressources Pédagogiques C.R.P.), free access to computers and the internet, a sustainable canteen (warm meals, soup and salad bar, sandwiches, pasta ...).

School placement

One of the goals is to observe pedagogical approaches in Belgium, to compare them with the ones in the home country in order to improve one's own practices as teacher trainee. The number of lessons taught will be negotiated with the home institution.

Pre-primary and primary

French speaking trainees will have the opportunity to teach all subjects in French.

Non-French speaking trainees won't be in charge of the lessons in « French as a mother tongue ». They will have the opportunity to teach their mother tongue as a « foreign language » (English or Dutch, rarely German).

Secondary

French speaking trainees will have the opportunity to teach the subjects they are trained for in French.

Non-French speaking trainees won't be in charge of the lessons in « French as a mother tongue ». We won't be able to organize school placement in “French as a foreign language” . You can hardly find this subject in the curriculum of secondary education, and the conditions are very different from lessons in FLE given abroad.

They will rather teach their mother tongue as a « foreign language » (English, Dutch, German or Spanish), or other subjects in French, including a cultural approach of their home country in French.

Immersion schools

Opportunities are very limited. At secondary level, only a few subjects can be taught in a foreign language.

All applications will be checked in terms of feasibility.

Some immersion schools can be situated at a certain distance from Liège. The applicant will be told in advance, in order for him to choose appropriate accommodation.

The trainee who chooses for school placement will commit himself to doing it in a serious and responsible way, in full respect of partner schools, mentors and pupils.

Assessment

The home institution will be responsible for the final assessment. It will be based on the mentor's written report: mentors will be free to use either the assessment document proposed by the trainee's home institution, or the usual HELMo document.

The HELMo international coordinator or a HELMo teacher will pay at least one visit to the trainee at school, in order to make sure the cooperation between trainee and mentor goes smoothly.

Accommodation

HELMo can't offer any students' room on campus.

4 options :

- Student residences (managed by private agencies)
- Student rooms belonging to private owners
- Youth hostel (temporary accommodation for the first week, the student will then have time to look for his/her own accommodation)
- Students look autonomously for their own accommodation
